

Dear parents,

There are times when the world appears upside down.

In these unusual times during the Corona crisis, everyone can lose their nerve, both children and adults. The income may also become scarce. So it would be good to ask for help in order to receive support.

We have compiled a detailed list for you of the supporting organizations with addresses, phone numbers, emails and websites. Here you will find all the offers available in Teltow that will relieve you of the burden of life in these difficult times.

We have tried our best to include and list the largest possible number of offers of assistance, however the list for you may be incomplete, so if you have more ideas that can be added, we look forward to your valuable contribution through a message from you.

I would be very happy to advise you and you can reach me by email:.

halloinfo@philantow.de

Or by phone at 017661443875.

I wish you all health and wellness

My best regards to you, I am Meike Emmendorffer, from the Department of Welcome Children and Family Care
